impact report

2017 Milwaukee Habitat Impact Report

education

87%

of Milwaukee Habitat homeowners' children have graduated from high school. That's nearly 30% higher than the average graduation rate of Milwaukee Public School students.

55%

of Milwaukee Habitat homeowners reported their children's grades improved since moving into their Habitat home.

health

50%

fewer Milwaukee Habitat homeowners reported experiencing housing related illnesses, such as asthma, after moving into their Habitat home.

"My daughter was two years old when she had her first seizure. The apartment we stayed in, I worried about lead poisoning. Since we moved into our Habitat home my daughter is seizure free. I thank God every day for Habitat." - Toni, Milwaukee Habitat Homeowner

community

76%

of Milwaukee Habitat homeowners say they cannot imagine ever moving or they plan to stay in their home for a very long time.

72%

of Milwaukee Habitat homeowners feel comfortable with their neighbors.
