Day 10: What About Baptism?

You've made it to day 10 of our texts designed to help you get started in following Jesus! Over the last several days, you have begun practicing some ways of building a relationship with Jesus. And we pray that you will continue with some of the new habits you are learning about connecting with God. Today we want to point you toward another important next step to consider taking.

One significant way that followers of Jesus all around the world celebrate their decision to follow Jesus is through Baptism. Baptism is a public expression of faith. Every example we see in the Bible demonstrates that a person first comes to believe in Jesus, and then he or she is baptized as an expression of that belief. We think that's a pretty big deal.

If you made the decision to follow Jesus at any point in your life and have not yet been baptized, this is a great next step for you.
