

DAY 3:

READ:

Galatians 5:14: For the entire law is fulfilled in keeping this one command: "Love your neighbor as yourself."

REFLECT:

Our purpose is not to solve their storm, it's to enter into it with them. People weren't looking for solutions or even answers. They were looking for someone who cares enough to be in their storm with them. This will feel uncomfortable. Just be there, ask questions, listen to their story and be present.

PRAY:

Father, I thank You for Your great love for me! I ask that You expand my love for others. I know there are times that I can be less than loving toward others. Increase my ability to willingly extend love to others around me in a way that is giving and self-less. Help me to be attune to others more. Help me to share Your love for me with people around me especially during seasons of storms such as we are in.
